

Panda Cares. Center of Hope

POWERED BY PANDA EXPRESS ASSOCIATES AND GUESTS

In 2019, Panda Express donated \$26,810,572 to 133 children's hospitals to care for the well-being of children.

PANDA CARES CENTER OF HOPE PILLARS

The Panda Cares Center of Hope inspires hope and promotes healing by providing specially curated programs that address each child's entire well-being, including their mental, emotional, physical and spiritual needs. Programs offered at the Panda Cares Center of Hope include therapeutic play, art therapy, meditation and counseling services, designed to give children the courage and strength to thrive:

MENTAL

Kids enjoy an escape from medical treatment where they can read, learn and grow. They have access to a library full of fun and empowering books and can continue their learning curriculum in a quiet, comforting space.

EMOTIONAL

Patients receive psychological and emotional support to encourage self-expression, reduce stress and better cope. Wellness programs, such as art, pet and music therapy strengthen patients from within.

PHYSICAL

Children participate in programs like physical, occupational and recreational therapies to improve motor skills and promote recovery.

SPIRITUAL

Children and their families receive spiritual support for healing through pastoral care, meditation and counseling services.
